programs in 50 states

45M+

People per year interact with our
multi-tenant SaaS solutions

23

States rely on Appriss' PMP solution

Selected examples of highly secure solutions we deliver

- JusticeXchange: sensitive criminal information for LE agencies; connects with FBI systems
- ICOTS: facilitates transfer of probationers and parolees across all 50 states and 3 territories
- NPLEx: tracking and blocking purchases of pseudoephedrine – a precursor to methamphetamine
- PMP AWARxE: HIPAA compliant, prescription drug monitoring program with out-of-the box connectivity to PMP Interconnect – an inter-state data sharing hub - and to clinician and pharmacist workflows

What is PMP AWARxE?

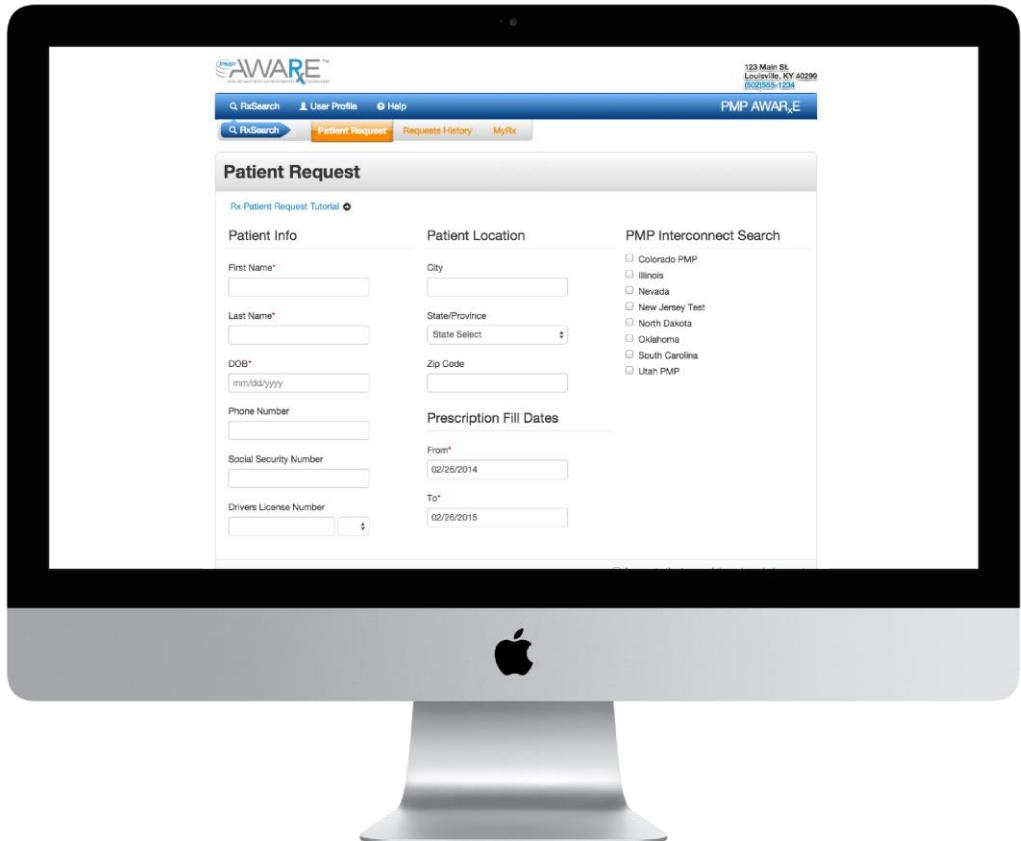

- Built from the ground-up with extensive design input from current and ex PMP administrators, prescribers and dispensers
- SaaS solution that addresses the most commonly cited issues with legacy PMPs
 - Robust data management capabilities to ensure highest data quality
 - Sophisticated patient linking to provide the most reliable data to requestors
 - Fast response times that are more in line with physician/pharmacist workloads
 - Automation for administrators
 - Visibility into key performance indicators
 - Out-of-the-box support for integrations with EMRs and Rx systems
 - Out-of-the-box support for advanced reporting and analysis
 - Enterprise-class performance, scalability and resilience
 - World class customer support for administrators and users – 24x7x365
- Nearly 15 year experience in PMP space with a history of long-standing partnerships with clients
- **The lowest TCO in the industry**

Major Needs Addressed for ABC-MAP Stakeholders

High Client Satisfaction with PMP AWARxE

“I have used four different systems here in Nevada, and PMP AWARxE is by far the fastest, easiest, most intuitive, and most reliable system I have used in my fifteen+ years with Nevada’s PMP. We *love* the 24 hour support!”

Lisa Adams, Nevada PMP Administrator

“Over half of the manual clustering names were automatically clustered/consolidated with our new PMP AWARxE software. I’m thoroughly impressed with the amount of time this saves me on a daily basis.”

Kathy Zahn, North Dakota PMP Administrator

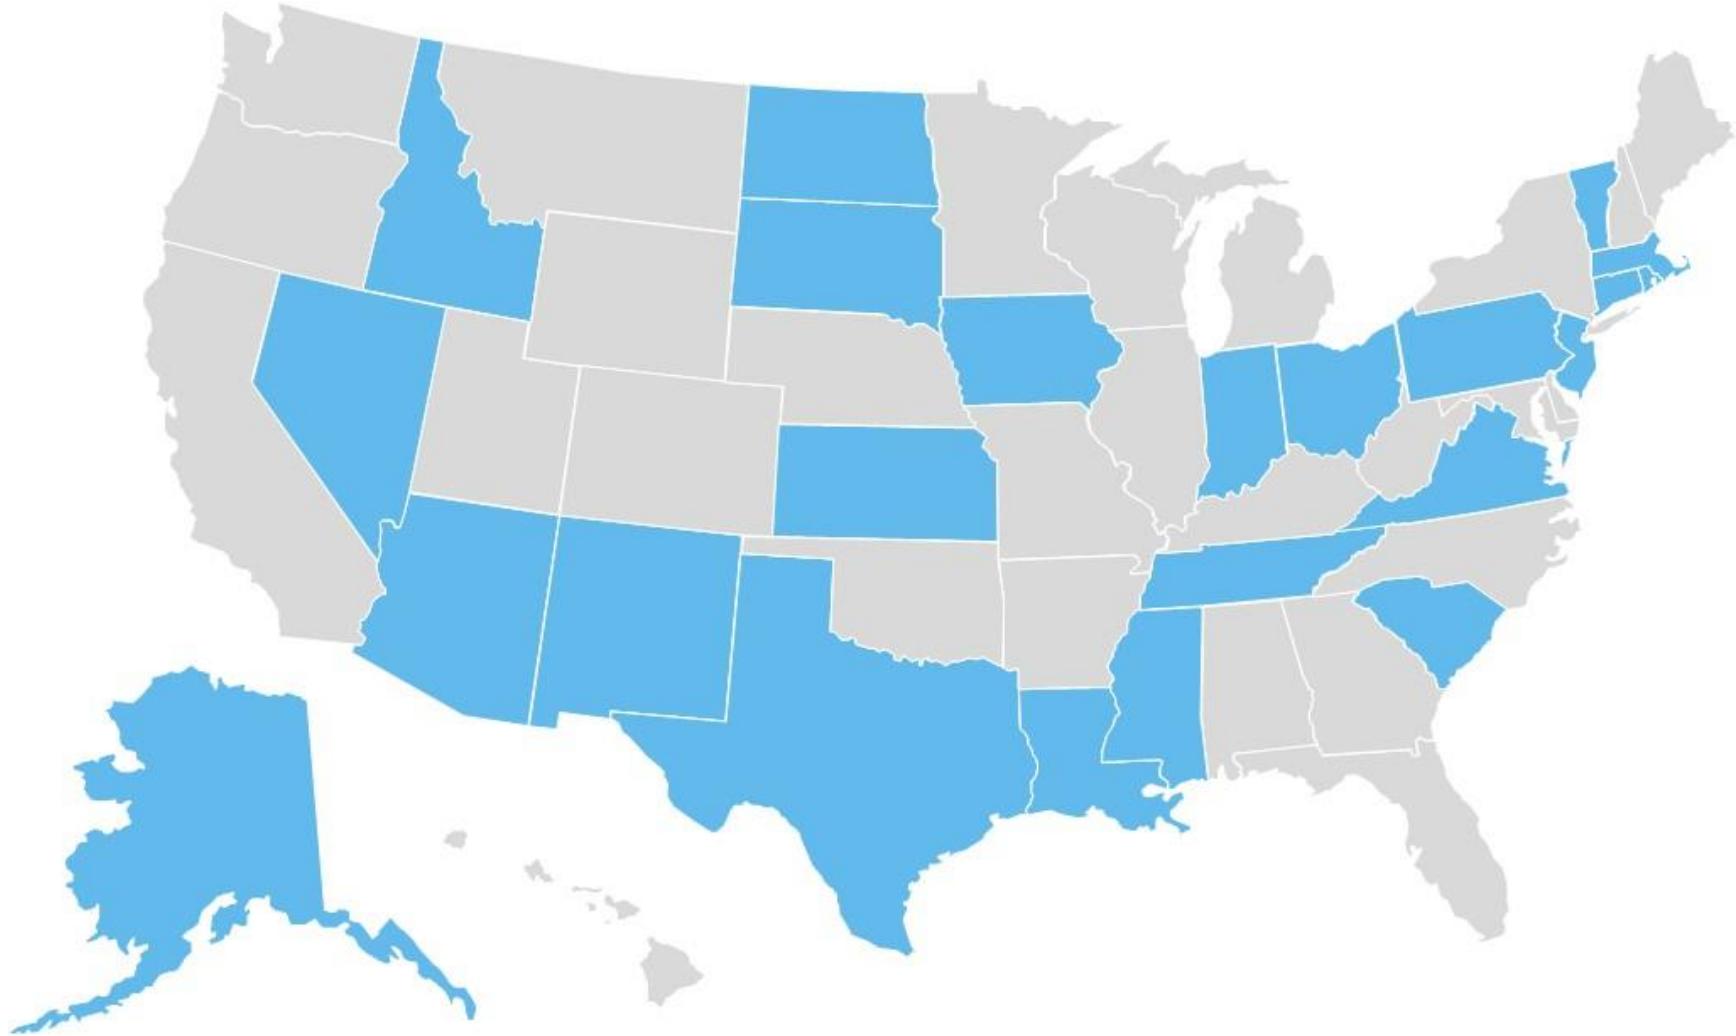

“I wanted to thank you and the entire APPRISS team for the incredible customer service and attention you’ve shown us over the past three months. Everyone on our side has remarked on the ease of the transition (something we were dreading) and the vast benefits that your system provides over what we were using.

Customer service is an overlooked area in business these days, but the businesses who do it well are diamonds in hills of rough rock. Thanks for such a flawless and easy transition...”

Angela Birt, Chief Investigator, Director of Corporations, Businesses & Professional Licensing, Alaska

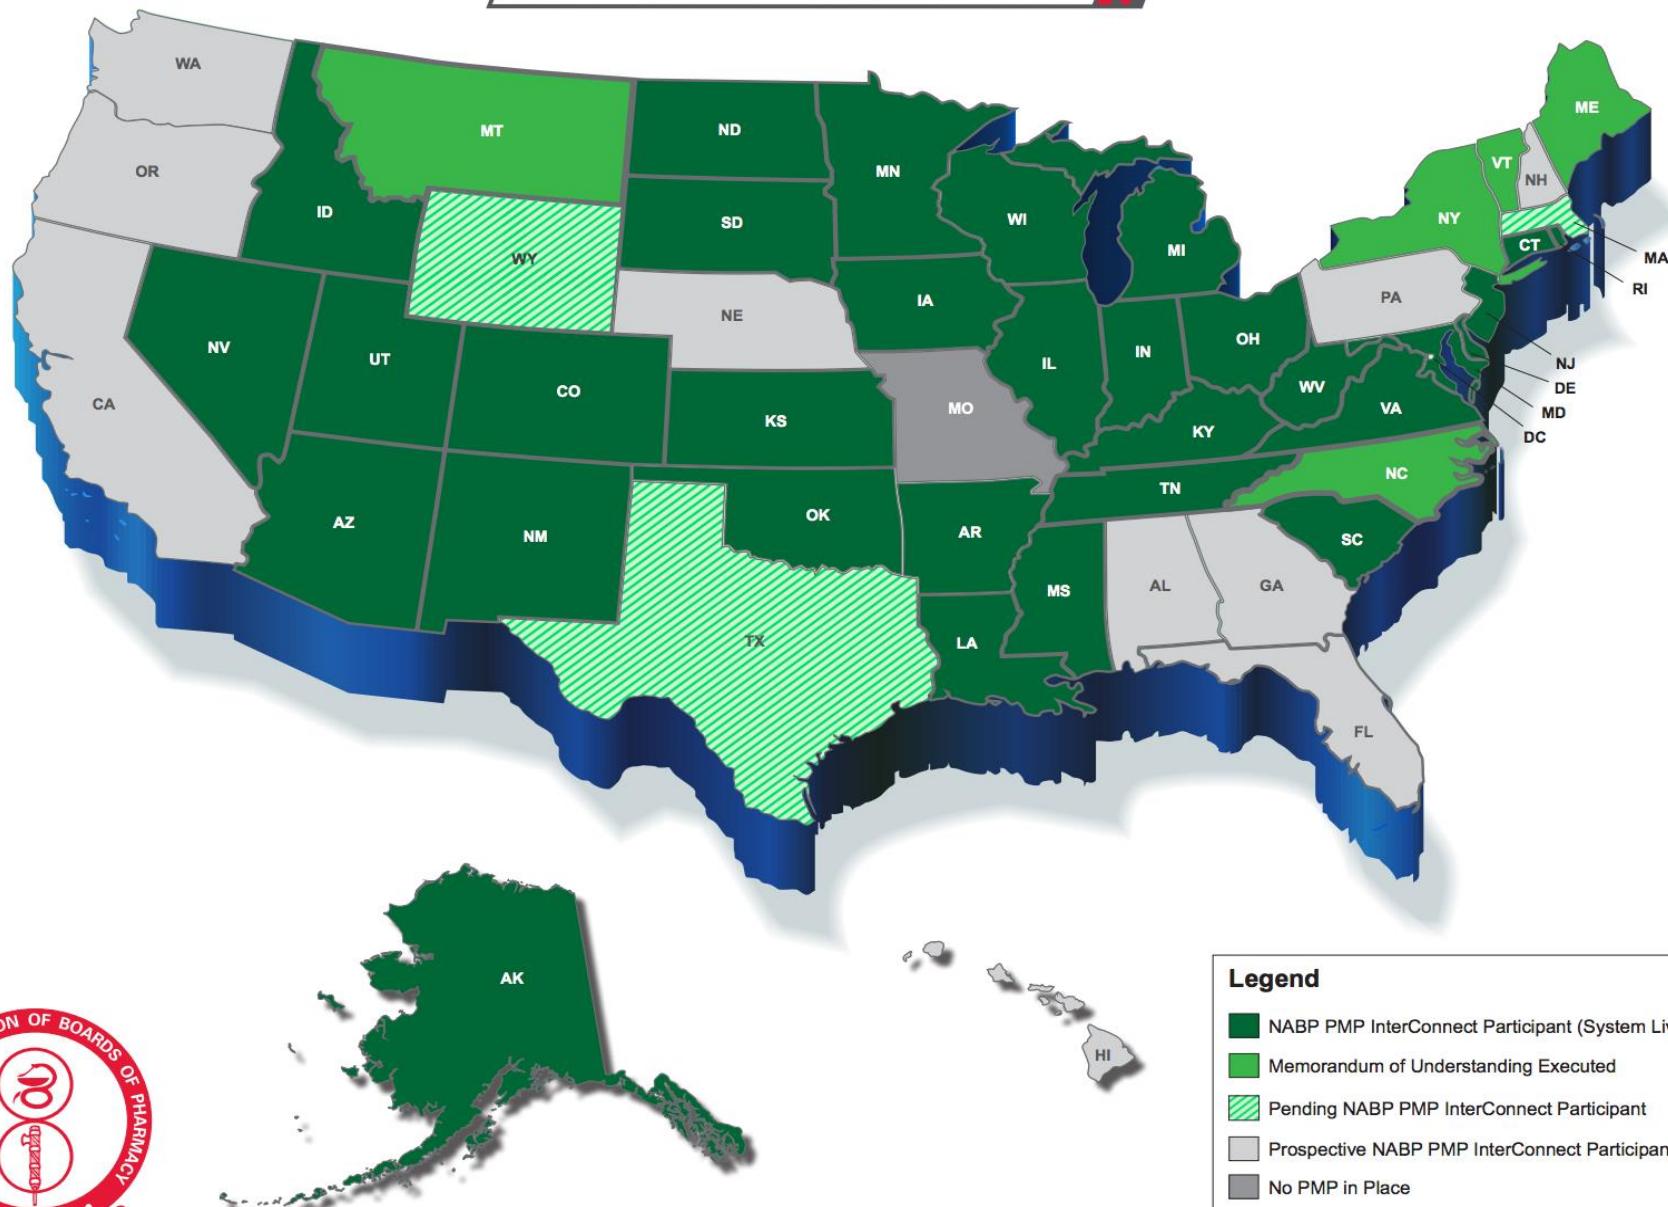

23 States Rely on Appriss' PMP Solution

PMP InterConnect: A Nationwide PMP Data Sharing Platform

- Launched in 2011 to facilitate interstate data sharing between state PMPs
- Owned by National Association of Boards of Pharmacy. Built and operated by Appriss
- Currently 32 states connected and climbing. All of Pennsylvania's neighboring states now on PMPi
- Features Include:
 - A “smart hub” routing methodology
 - A “rules engine” to enforce interstate data sharing permissions
- Currently processing > 1.8M requests per month and increasing month-over-month

PMP Gateway: A Health IT Connectivity Platform for PMP Data

- PMP Gateway is an interface that simplifies integration of controlled substance prescription history into health IT systems.
- Provides health IT systems, a single access point to many state PMPs' data via PMP Interconnect, thus saving healthcare providers, the effort of doing individual integrations with each state PDMP.

Agreements in Place to Accelerate Adoption

State

- Appriss and Licensee (hospital, pharmacy or an authorized partner to their customer) enter into a license agreement (term sheet and license agreement in your information packet)
 - *Authorized user definition provides details of who can access or use*
 - *Details around State determinations for Licensee's access to that State's data*
 - *Access and Use Policies*
 - *Use of Service Information: Licensee shall not request, compile, store or maintain or use the Service Information to build or enhance its own database or for any other purposes except to fulfill any applicable legal requirements in connection with a patient medical record.....*

- Agreement in place between NABP and Appriss for the development and operation of PMP Gateway
 - *Appriss is responsible for the development and operation of the Gateway to be in accordance with applicable laws and/or rules established, from time to time, by states related to their PMP Data*
 - *Appriss shall be responsible for negotiating and entering into written licensing agreements with Gateway Licensees.....The parties have mutually agreed on the form of the Gateway License Agreement, including customer terms of use, which is attached to and incorporated herein as Exhibit 3*

- Memorandum of understanding and a trusted model for sharing data across state lines
